**NORMAN FILING AND APPLICATION FOLLOWING  
CONSEQUENTIAL ORDER TO THE STATUS CONFERENCE OF  
22 MARCH 2006.**

1. The filing and application referred to herein are pursuant to SCSL-04-14-T-575 of 23 March 2006, "Consequential Order to the Status Conference of 22 March 2006" (**"the Order"**), the said required data being presented herein in Annexes attached hereto.

ANNEX A

2. Annex A presents both a **core-witnesses list** for the remaining Norman defence following the 8 witnesses who testified in the Sixth Trial Session of the CDF trial and also a **proposed order of appearances of witnesses** for the said 1<sup>st</sup> Accused Norman during the Seventh Trial Session of 3 May to 16 June 2006 inclusive.

(i). Core or Reduced Witness List.

3. Although **the Order** mentions a "re-filed and reduced witness list", it is to be noted that **no** such "reduced list" of Norman witnesses has been previously filed. However, reference was made at the Status Conference of 22 March 2006 to the fact that the Norman Defence Team was actively considering severely reducing their witnesses into a **core-witness list** which would absolutely circumscribe and define the maximum total of remaining witnesses to be called in defence of Norman, but which reduced list had not yet been finalised by the time of the said Status Conference.
4. Annex A hereto now contains that proposed maximum total number of witnesses intended to be called to testify for Norman in all remaining trial sessions of the CDF, subject of course to further reduction or application for further extension as may be found strictly necessary. The 27 witnesses listed in Annex A are obviously in addition to the 8 witnesses who have already testified for Norman in the Sixth Trial Session, bringing the intended absolute total to 35 witnesses for Norman.

(ii). Order of Witnesses for Seventh Trial Session.

5. The same Annex A hereto also proposes, as listed therein, the order of appearance of the Norman witnesses during the Seventh Trial Session of 3 May to 16 June 2006 inclusive, to the extent that such witnesses are actually called. If in actual fact all the said listed witnesses in Annex A are **not** called during the Seventh Session, then it is hereby urged that the remaining list be deemed in advance to be the proposed order of appearance of the Norman witnesses in the subsequent trial session(s) subject to any applications for alteration of number or sequence.

ANNEX B.

6. Notwithstanding that Annex A represents the total number of witnesses intended to be called on behalf of Norman in his remaining defence, however, it is considered prudent at this stage to retain a tentative back-up list of a further 51 witnesses as a pool to which resort **may or may not** be made as may become strictly necessary in the interest of the defence of Norman. Annex B contains such

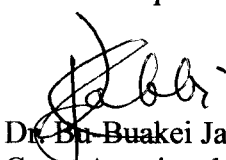

a list, which the Norman Defence Team will however endeavour to do its utmost to dispense with in the actual testimonies for Norman by the time Annex A is exhausted.

#### ADDITIONAL WITNESSES

7. **The Order** mentioned above also peremptorily admonishes that the Norman Defence Team “shall reconsider the necessity of adding 13 witnesses to their witness list, for which leave had been sought from the Chamber” (para. 5 thereof). A separate application is being filed today in this regard with a proposed reduction from 13 to 8. Furthermore, however, the additional witnesses for whom leave is being sought are, in effect, further drastically reduced to 4 for inclusion in the **core-witnesses list** in Annex A hereto, the said items therein being items 8, 10, 19, and 26, in the order in which they are intended to be called in upcoming trial sessions of the CDF. As the relevant data required to be supplied by the aforesaid **Order** are substantially satisfied in the Annexes hereto, and especially in Annex A as indicated herein, the Chamber is hereby respectfully urged to grant the leave sought, with the said 4 names inserted in Annex A retaining the order of appearance proposed therein for them.

#### ADMISSIONS, ETC

8. The Norman Defence Team has not found it practicable to provide expanded summaries for witnesses at items 1 and 21 of Annex A hereto, mainly because a decision on a subpoena application in respect of item 1 is still outstanding from the Chamber itself; and also because, in respect of item 21, a recent visit by a Norman Legal Assistant to Nigeria found the witness in a state or condition of health which made it impracticable during the visit for the witness to access vital materials for a full statement to be obtained from him. It is hoped that as soon as these two situations make it feasible, the relevant expanded summaries will be immediately supplied; and the Chamber is respectfully urged to accommodate the present status quo in this regard. Meanwhile, the two witnesses retain their respective positions in the order of appearance and it is hoped that the order in respect of item 1 in particular will be actualised when the said hearing falls due as listed.
9. The Norman Defence Team has found it equally impracticable to file as at now the “admissions by Parties and a statement of other matters which are not in dispute”, as stipulated in paragraph 8 of the aforesaid **Order**. This is regretted with sincere apologies and an assurance that the matter is under active advisement and consideration for compliance therewith as soon as practicable.
10. It is otherwise submitted that the Annexes hereto present adequate material data for compliance with paragraphs 1 to 7 inclusive of the said **Order**.

  
 Dr. Bu-Buakei Jabbi.  
 Court Appointed Counsel for Norman.

	<p>government, especially the meeting at Tiihun some two weeks after that at Talia. How kamajors, chiefdom elders and dignitaries from several surrounding chiefdoms from Bo, Bonthe and Moyamba Districts attended the Tiihun meeting.</p> <p>-How at the first Talia meeting, the people established a special fighting group to protect Bonthe District, and how various names were considered for this group but finally settled upon calling it Death Squad, mainly because the members were supposed to be so fearless of death that they could face the fiercest enemy invasion and turn the invaders into death itself. One Boboh Tucker (alias Jegbeyama) became the leader of the new Death Squad, and witness (alias Hardway) became its Frontline Commander and Yassin Collier its Secretary. How the chiefdom people instructed that specific rules and laws be clearly spelt out for the operations of the new Death Squad, and which was duly and immediately done. How Death Squad took a base at Sumbuya Junction on the Bo-Mattru Road and conducted raids on rebel bases far and wide, with great success and seizing of large quantities of arms and ammunition, which were taken to Talia and distributed among other Kamajor groups</p> <p>-How at a subsequent meeting at Talia, the people decided to seek contact with President Kabbah in Guinea through his Deputy Minister of Defence, Chief Hinga Norman, who was reportedly in Monrovia.
